---

Full-Stack developer specializing in modern web applications using **React**, **Node.js** and **TypeScript**. Experience building interfaces and backend services, integrating **REST APIs**, authentication with **JWT** and **relational databases** and **NoSQL**. I have developed full-stack applications and solutions for clients, applying good architecture practices, automated testing and containerized environments with **Docker**. Previous experience in the General Directorate of Customs working in API integration and web application development.

## PROFESSIONAL EXPERIENCE

---

### Property Group

Full-Stack Web Developer (Freelance)

**National District**

*December 2025 - Delivered*

- Development of a full-stack web system for real estate property management with administrative dashboard and **REST APIs**.
- Frontend implementation using **React** and **TypeScript** with modular architecture and reusable components.
- RESTful API **development** with **Node.js + Express**, documented and deployed in **Render**
- Integration with **MongoDB** for data persistence, with relational schema of properties, users, and transactions.
- Containerized backend with **Docker** and deployed in **Azure Container Apps** using automated **CI/CD** pipeline with **GitHub Actions** (build → push a **GHCR** → deploy automático).

### **Directorate General of Customs (DGA)**

Frontend Web Developer

**National District**

*March 2025 – June 2025*

- Development of the frontend of a POS system for cafeteria with **React 19** and **TypeScript**, with invoicing, employee management and order history modules.
- Integration with **REST APIs** for product, customer and sales management.
- Implementation of JWT-based authentication and authorization in frontend applications.
- Manual cross-browser testing and component documentation according to style guides.
- Integration of backend services developed in **ASP.NET Core** through API consumption.

## EDUCATION

---

### **Instituto Tecnológico de Las Américas**

Software Development Technologist

**La Caleta, Boca Chica**

*2021 - 2025*

## TECHNOLOGIES

---

- Frontend: **React**, **Next.js**, **TypeScript**, **TailwindCSS**
- Backend: **Node.js**, **Express.js**, **REST APIs**, **JWT Authentication**
- Databases: **MongoDB**, **PostgreSQL**
- Herramientas: **Git**, **Docker**, **GitHub Actions**, **Azure Container Apps**, **Postman**, **Vercel**, **Jest**
- Languages: **Spanish** (native) · **English** (Intermediate — Advanced Technical Reading)
